DETAILED ACTION

Summary of changes in this action

- I. The amendment overcomes the outstanding indefiniteness.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Park et al. (USPN 5,729,178). Park et al. discloses, in Fig. 8, a circuit comprising: “a pair of differential signal input terminals (V1 and V2)”; “first and second switching transistors (Mc1 and Mc4)”; “third and fourth switching transistors (Mc8 and Mc11)”; “an output stage” having “a first output stage (Mc15 and Mc16)”; “a non-differential output terminal (VCM)”; and “a second output stage (Mc5 and Mc12)”, all connected and operating similarly as recited by Applicant.

Examiner has fully considered Applicant's remarks for the above rejection and has not found them to be persuasive. Further, Applicant's remarks are not understood. As seen in Applicant's Fig. 3, for example, the “first output stage” and the “second output stage” are the input to the current mirror 310 and the output of the current mirror 316. This is the same configuration of the reference to Park. Clearly, transistors Mc5 and Mc12 provide an output from the differential stage and transistors Mc15 and Mc16 provide a further inverted current output. Clearly, this configuration will read on the claim recitation.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
